Professional Summary

Enthusiastic **Java Full Stack Developer** with knowledge of **Core Java, Spring Boot, REST APIs, MySQL, React.js**, and **web development**. Experienced in developing Java-based applications through academic and personal projects, with a strong understanding of Object-Oriented Programming and backend development. Quick learner with a passion for building reliable and efficient applications. Seeking an opportunity to start my career as a Java Full Stack Developer and contribute to real-world projects.

Technical Skills

- Programming & Frameworks: Core Java, **Spring Boot**, Spring MVC, Hibernate/JPA, **REST APIs**, React.
- Languages & Databases: JavaScript, HTML5, CSS3, **MySQL**, PostgreSQL.
- Tools & Technologies: **Eclipse**, VS Code, Git, **GitHub**, Postman, Apache Tomcat.
- Key Concepts: **OOP**, Exception Handling, Multithreading, **Collection Framework**, Java 8 Features.

Training

Java Full-Stack Development

Cravita Technologies Pvt. Ltd., Pune | Sept 2025 – Present

- Developed end-to-end applications using Spring Boot and React.js.
- Developed RESTful APIs and integrated backend services with frontend applications.
- Worked with MySQL and PostgreSQL for database management and optimization.

Projects

EduManage - Institute Managemnt System

Tech Stack: Java, Spring Boot, Spring MVC, Hibernate/JPA, MySQL, JSP, REST API, Spring Security, JWT, Maven.

- Developed a multi-role institute management system for Admin, Institute, Trainer, and Student.
- Implemented secure authentication using JWT, role-based authorization, and user approval workflows.
- Developed and tested REST APIs using Spring Boot and Hibernate/JPA for managing institute related data.
- Followed layered architecture with Controller, Service, Repository, and Entity layers.

HomesteaderIndia - Agriculture Information Portal

Tech Stack: Java, Spring Boot, Hibernate/JPA, MySQL, JSP, Bootstrap, OpenWeatherMap API

- Developed a web-based agriculture information portal for farmers and agricultural students.
- Implemented modules for crops, fertilizers, vegetables, seeds, fruits, market prices, and climate information.
- Implemented training requests, farmer feedback, and daily/weekly/monthly report generation.
- Added PDF/Excel reporting and quick search features for agriculture-related information.

Education

Bachelor Of Computer Application (BCA)

08/2022 – 06/2025

Takshashila Mahavidyalaya , Amravati
CGPA : 6

Higher Secondary Certificate (HSC)

07/2019 – 03/2021

Urdu Saifee Jubilee Junior College , Amravati
Percentage : 88%

Certificates

- Java Full Stack Development
